

Our recommended travel route on Tuesday, June 8 offers a stop in the village of Baldwin as we travel to Muskegon for an evening car event. A lot of downtown development has occurred in Muskegon since 2017 when the city hosted the Tour for the very first time. We are excited about this year's return visit!

Baldwin is just moments away from a multitude of experiences! You won't be short on things to explore as you make your way through Baldwin and Lake County. Visit the charming gift shops, galleries, restaurants, and ice cream shops in downtown Baldwin. The World's Largest Brown Trout Sculpture is the focal point of the Village. Home to the first Brown Trout planting in North America, the sculpture is also located directly across from the Lake County Historical Society Museum on Main Street. If you love to fish we are known for our nationally acclaimed trout stream, the Pere Marquette River. We are home to many bait, tackle and fly shops and a drift boat manufacturer. You can explore and experience endless outdoor activities with miles of trails for hiking, biking and off roading. There are dozens of nearby lakes in which to swim, kayak, canoe or boat. Downtown is also just moments away from an airstrip holding radio controlled modeling events. Also just minutes away are campgrounds and canoe/kayak rentals, garden shops, grocery, hardware and lumber stores. No matter what you choose to do, you'll soak up the beauty of Baldwin!

[Muskegon](#) is an amazingly walkable and drivable city for the 2021 Back to The Bricks® promotional tour. Downtown Muskegon on Western Avenue is one of Michigan's hottest destinations with the recent opening of the new Van Dyk Mortgage Convention Center and the renovated Mercy Health Arena, both of which are connected to the new Delta by Marriott hotel. The downtown Muskegon social district offers 13 bars and restaurants, 3 breweries, 2 distilleries, 2 coffee shops and a cigar shop. Additional stops include museums, a farmers market, and small independent shops for your enjoyment.
